I benefit from listening to XM Satellite Radio and its traffic and weather channels. With Satellite radio I receive full music without commercials. With other radio stations you get to hear in an hours time 45 minutes of commercials and 15 minutes of music. I do not want to hear the talkshows in the mornings, and that's why I pay for this service. I do not believe the National Association of Broadcasters should tell me what I can and should listen to. So please reject the NAB from stopping XM Satellite Radio.
